

06.

Make sure....

that your Solicitor is able to offer a "No Win No Fee" agreement to take your claim. A Solicitor accredited by The Association of Personal Injury Lawyers will ensure that you will get the best possible legal representation and that you get the maximum compensation in the shortest possible time.

07.

Don't delay....

Although (in the UK) you have 3 years to bring a claim through the Courts, the general rule is the longer you leave it, the worse the claim gets. So get some advice whilst matters are fresh in the mind, and the evidence is still "warm"!

Excalibur Solicitors can arrange;

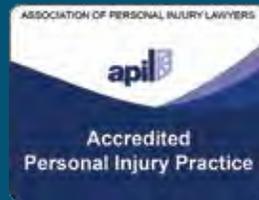

Home/hospital visits at no cost to you

Free legal Advice

Private medical treatment/rehabilitation (if required)

Replacement vehicle (if yours is damaged in a road accident)

Interim payments to cover your losses

HAD AN ACCIDENT?

YOUR ESSENTIAL GUIDE TO MAKING A CLAIM

Call **0800 088 7022**

You don't have to claim...

You may be content with a simple "sorry" and an assurance that the accident won't happen again, or a token gesture of goodwill ("ex gratia payment").

But if you do...

01.

Report the accident straight away....

For Example:

- a) The shop/supermarket manager if you slipped or tripped in a shop.
- b) Your employer if you have been injured at work (and make sure they complete an entry in the Accident Book).
- c) The Police if you have been injured on the road

By doing so, you can prevent the same accident happening to someone else

02.

Visit a doctor or hospital...

so your injuries can be treated and properly documented. Also keep a personal injury diary, as memory fades with time, to avoid any dispute later about the injuries sustained and losses you may have incurred. For example; prescription costs, phone calls, taxi fares, treatment costs and loss of earnings.

03.

Keep a record of the contact details....

of the Defendant and any witnesses to the accident. Even if liability is accepted verbally at the time, insurers have a nasty habit of "changing their mind"!

04.

Take Photographs....

of anything which you think caused the accident e.g. defect in the road/pavement, faulty equipment or positions of cars on a road. If you don't have a camera, even a camera phone is better than nothing! Even if the accident happened some time ago, you can revisit the scene to take photos.

05.

Seek specialist legal advice....

about making a claim for compensation for the pain and suffering you have experienced and any financial costs you have had to bear. Claims Companies might sound very impressive on the TV advert but are they members of the Association of Personal Injury Lawyers? You wouldn't expect a car mechanic to fix your washing machine!
